

# CONCRETEBETON

The Concrete Beton magazine is a Department of Higher Education and Training accredited technical journal, which sets out to promote excellence and innovation, in the design and use of concrete.

Concrete Beton is published quarterly by the Society and mailed exclusively to the its members. Electronic versions are generally available through the Society's website at [www.concretesociety.co.za](http://www.concretesociety.co.za)

This unique publication provides an invaluable source of information on the science and practice of concrete, reaching professional disciplines that encompass project management, consulting, civil engineers, construction management, architecture, quantity surveying, plus specialist suppliers in the concrete sector.

The editorial content provides a balance between scientific and technical discussions on concrete, and includes features on industry projects, events, seminars and Concrete Society activity generally.

Concrete Beton informs industry professionals on the latest developments in this field and includes local and international accredited technical papers, to ensure that best practice solutions continue to be applied in South Africa's world class infrastructure.
